

The mascot in the bubble

The site's mascot, nesting in the TT speech bubble: one figure for the header, the footer, the hero and the seals. Navy is the primary version, the one the site uses. Sand goes on light bands and in print.

The proof section of the home page, and the only one the visitor sets in motion. Three short paragraphs at 1.25rem over a 52ch measure, a statement that writes itself in, four facts with a scene each, and the three roles on a sheet. It has to fit one screen, so the padding is the short one and the copy is cut rather than shrunk.

THE STATEMENT

El tero no migra. Defiende su nido y *se atreve.*

Type	Fraunces 300, clamp(1.9rem, 2.9vw, 2.5rem), 23ch, tracking -.015em
Turn	the italic fragment in --color-accent, never the whole line
Write-in	clip-path 0 to 100%, 1.1s, cubic-bezier(.3,0,.2,1)
Stroke	dashoffset 1 to 0, 0.7s, starting 0.55s after the line
Stamp	scale .5 to 1, 0.55s, 1s in: the stamp lands tilted 30 degrees, as if pressed by hand; the face inside is line art, hollow, nothing else
Trigger	scroll check at 88% of the viewport, armed by script, 6s failsafe
Fallback	no script or reduced motion: the line is simply there

THE FOUR FACTS · REPLAYED ON HOVER AND FOCUS

2020	5 años	IB	B2B
enseñando inglés desde entonces	de aula en colegio bilingüe	programas PYP y MYP	inglés corporativo para profesionales
the years draw to the dot	the tero flies in and lands	the seal turns, the tick draws	the call pops, the bars beat
Frame	one row, a 28px tick over each, no box: boxed they read as a CV table		
Hover	the tick grows to 56px and turns accent		
Base state	the finished frame, so an untouched fact still reads		
Breakpoints	2 x 2 under 900px, art 96px under 640px		

THE ROLES · A SHEET, NOT A TABLE

PRIMARIA BILINGÜE	COLEGIO IB	INGLÉS CORPORATIVO
<i>Inglés en primaria, colegio cooperativo</i>	<i>Teaching Assistant Years 1 y 2, Assistant Year 5, English & Maths Year 6 (PYP)</i>	<i>Clases remotas para profesionales que trabajan con el exterior</i>

The portrait sits in a 375px column at 84% of its width, orbited by the brand thread and a tero feather, both line work at 45–55% opacity. The kind of place is the label; what Flor did there is the content. No school is ever named.
